FOUND VESSELS

The Vancouver Police Marine Unit is reminding owners of moored vessels in the Vancouver area of an ongoing issue of the theft of tenders and auxiliary engines. Further, it appears tenders are being utilized by suspects to enter marinas and vessels at anchor, to break into vessels.

The unit recovered two abandoned vessels, October 13th and 15th, and are asking for assistance in identifying them.

- 1) October 13th – Delphin Inflatable white and blue. Located abandoned south side False Creek, east of the Cambie Bridge.
- 2) October 15th – Plastic 6 foot cathedral hull dinghy abandoned on shoreline between Kits and Jericho. Make unknown. “OK BOAT” in black letters on sides.
