Jamie Gibson 778-229-6932

### **Vessel Identified**

On May 19<sup>th</sup> 2010, investigators from the Konstanz Police in Germany contacted the VPD Marine Unit for assistance in identifying a suspicious vessel enroute to Russia.

A bulletin requesting assistance was fanned out via Stolen Boats Canada, and within hours, Vancouver marine surveyor, Philip Oldham contacted police with information leading to the vessel's identification. As a result, an international investigation is ongoing between German authorities, US Department of Homeland Security and the Vancouver Police Marine Unit. Investigators on this file appreciate all the assistance provided from the marine community in this incident.
