MARINA ALERT

The Vancouver Police Marine Unit has been receiving an increase in the amount of vessel break and enters to vessels moored in area marinas. The targeted vessels primarily are larger yachts that are under protective wraps. In many cases the suspect(s) enter the vessel and appear to stay on the vessel for a few hours, eating and drinking onboard supplies. Police are reminding vessel owners to check on their vessels regularly and report any break and enters or thefts to police and the marina operator immediately.
