RECOVERED/INFO REQUESTED

On March 26th, 2014, Department of Fisheries and Oceans officers, from the Langley BC Detachment, were patrolling the Fraser River near New Westminister when they observed a 14 foot Lund tied to the shore between the booms and shoreline. The officers recognized the vessel as the possible stolen featured on a Stolen Boats Canada bulletin they had received. Officers Clattenburg, McCrae, Klassen and Aitken secured the vessel and confirmed it to be the 2008 Lund that had been stolen from North Vancouver in early March. The vessel was seized and secured for further investigation with the assistance of the Coquitlam RCMP.
