STOLEN BOATS CANADA

Non Profit – Public Service

Jamie Gibson 778-229-6932

RECOVERED VESSEL

Members of the RCMP Lloydminster Detachment and RCMP Auto Theft North-K Division investigators out of Edmonton, teamed up to successfully identify a 2008 Sea Doo 230 Wake that had been stolen from the Lloydminster Alberta area. Stolen Boats Canada is reminding boat owners to carefully record the Hull Identification Number, engine numbers and maintain current photos of your vessel to assist investigators in case of a theft. We also recommend considering a GPS Tracking systems and to secure your boat and trailer at all times.
